

## **Suggestions for Projects in 2003**

Dear friends,

Once again planning time has arrived and we are happy to start as early as ever before. We will circulate this tentative overview with all stakeholders and invite you to make comments and suggestions for further projects. We would like to have your input by mid-September 2002 in order to prepare the decision-making process. Final agreements will be made on the meeting in Leverkusen on the second weekend in November. Please understand that the early planning is also crucial for funding of the projects since we experienced several setbacks this year.
